***Want to know how your competitors are successfully keeping it all together? The secret is by utilizing virtual staff! Check out the benefits below!***

*Medical virtual assistants are independent contractors which means that you don't worry about payroll taxes, PTO, sick pay, workers compensation, health, dental or even unemployment insurance.*

*A medical virtual assistant is your collaborative partner, that takes on all of the administrative tasks that distract you and your clinical staff from patient care. Get back to doing what you love and leave the rest to us. **Contact Holt Virtual Assistance today!***
